SUMMARY

Full Stack Web Developer leveraging years of STEM research to attain skills in problem solving, managing projects, and understanding complex ideas. Attained a B.S. in Biotechnology with 7+ years of research and development experience, and a certification in Full Stack Web Development from the University of Utah. Enjoys continual learning and collaboration amongst teams to accomplish a shared goal.

Technical Skills

HTML5 │ CSS3 │ Bulma │ Bootstrap4 │ Material-UI │ GIT │ Github │ Javascript │ Jquery │ React │ Node Express │ MySQL │ APIs │ Mongo │ Front end │Project Management │ Technical Writing

Projects

Stock Watcher

Hosted link - https://stock-watcher-ch.herokuapp.com/

Github repo - https://github.com/E-Huynh/stock-shares-viewer

Application allows users to search and view stock information. Users are able to organize and save stocks into watchlists.

Technologies implemented - Bulma, MySql, Sequelize, Express, Ajax/Axios

Fast Hikes

Hosted link - https://e-huynh.github.io/FastHikes/index.html

Github repo - https://github.com/E-Huynh/FastHikes

Combines Google's traffic API with REI's hiking project API to return hikes that a user can travel to and complete, based on user location and time duration. Users are able to sort the return hikes by difficulty.

Technologies implemented - CSS Grid, Flexbox, Jquery, Ajax

EXPERIENCE

Biofire Diagnostics   **Salt Lake City, UT**
Research Associate   **August 2012 – Present**
- Tasked with researching problems and developing methods to properly test, solve, and confirm conclusions.
- Managed multiple interns, projects and timelines, while communicating project updates to numerous teams resulting in two patent application submissions.
- Converted, implemented and verified coding language change to LUA in conjunction with new product hardware.

EDUCATION

University of Utah Coding Bootcamp   **Salt Lake City, UT**
Certification in Full Stack Web Development   **November 2019 - Present**
- A 24-week Full Stack boot camp dedicated to designing and building end-to-end web applications.

Utah Valley University   **Salt Lake City, UT**
Bachelor of Science in Biotechnology   **April 2013**
